

# SGN

Your gas. Our network.

# help to **heat** scheme

**If you're finding it difficult to afford keeping your home warm, we may be able to help you by connecting your home to our gas network for free.**

Through our Help to Heat scheme, we can offer free or discounted connections to our gas network for eligible households who need extra support.

Gas heating offers instant, affordable and controllable warmth for your home and may cost less than what you're currently using.

## **About us**

We manage the network that distributes natural and green gas to 5.9 million homes and businesses across Scotland and the south of England. Whoever your supplier is, our pipes deliver gas safely, reliably and efficiently to every one of our customers. It's your gas, in our network.

## How could you help me heat my home for less?

If you're eligible, in most cases we can fully fund connecting your home to our gas network for free, whether you're a homeowner or tenant.

## You, or someone you know, could qualify for support through our Help to Heat scheme if:

- You receive certain benefits, or
- Your household has low income, or
- Your household includes someone aged over 70, or
- Your household includes someone with an ongoing health condition affected by the cold

And:

- Your home is less energy efficient than an EPC band C
- Or, you are eligible under your local authority's ECO Flex criteria, given in their 'statement of intent'. This can include income, but may also include health conditions and/or your home's energy efficiency rating.

## How do I find out more or apply?

To find out if you're eligible, call our Help to Heat advisors on our freephone number or visit:

Action for Warm Homes

We've partnered with NEA's Warm and Safe Homes Advice Service to help households facing difficulties with paying their energy bills.

The service supports people with accessing grants and offers advice on managing fuel debt. Visit [nea.org.uk/washadvice-service](https://nea.org.uk/washadvice-service) or call **0800 304 7159** for more information.
