

SGN

Your gas. Our network.

Environment and Sustainability Policy September 2024 - March 2025

The SGN Board has ultimate responsibility to protect the environments we work in, reducing our negative environmental impacts, and preventing pollution.

We are committed to continual improvement to develop a sustainable business. This involves increasing environmental opportunities to meet the net zero challenge whilst adapting to climate change risks.

We are committed to:

- Reducing our carbon footprint to achieve net zero by 2045
- Showing we care about the planet, the communities around us and how we contribute to the UN Sustainable Development Goals
- Using resources sustainably, through reuse, recycling and developing circular economy processes
- Managing climate change risks and impacts on our operations, assets, and buildings
- Monitoring our environmental aspects, impacts and opportunities
- Enhancing biodiversity on our sites, aiming for net gain where possible
- Managing our operations and any land we own in a responsible manner
- Reporting, investigating, and reducing environmental incidents
- Complying with all relevant legislation and regulations
- Maintaining our environmental management system to meet ISO 14001 standards
- Developing suitable objectives and targets and monitoring progress against these
- Auditing and inspecting our business to drive improvement
- Developing and improving environmental training, awareness, and competence
- Holding and managing Environmental Management System Documentation
- Developing and testing emergency response plans
- Promoting the benefits of enhanced environmental performance
- Providing visible leadership

Protecting our planet and creating a sustainable future for SGN and our employees

Rob Gray
Chief of Staff
