

Investing in your gas supply

Rye Lane Peckham, SE15

SGN
Your gas. Our network.

We're investing over £1 million to upgrade our gas network in Rye Lane, Peckham.

This essential work involves the replacement of old, metal gas mains with new plastic pipe to ensure a continued safe and reliable gas supply.

Following discussions with Southwark Council, our project will start the week commencing Monday 7 January 2019 and last approximately 13 months.

You'll find further details, such as where we'll be working, overleaf.

We're committed to upgrading our network to ensure we continue to keep homes and

businesses safe and warm long into the future. We're using the latest technology to minimise disruption as we replace our pipes in your community.

All businesses in the local area will remain open as usual. Local small businesses which suffer a genuine loss of trade because of our work may qualify for our compensation scheme. Packs are available from our website, sgn.co.uk, via the Publications section.

Where is the work taking place?

Key

- Phase one work area —
- Phase two work area —
- Phase three work area —
- Phase four work area —
- Phase five work area —
- Phase six work area —
- Diversion route —

We are sorry about any inconvenience our work causes and would like to thank road users for their patience. This is a complex engineering project, however we always aim to minimise disruption whenever possible.

We'll be starting our Rye Lane project during the week commencing 7 January 2019. We'll be progressing southwards along the road from Hanover Park towards Sternhall Lane over 13 months.

We'll be working in six phases to minimise disruption, with each phase lasting between six and nine weeks. To ensure everyone's safety, we'll need to temporarily close a section of Rye Lane to through traffic around our work area during each phase. A signed diversion route will be in place for motorists and cyclists travelling in both directions via Hanover Park and Consort Road. Pedestrian access to homes and businesses along Rye Lane will be maintained at all times.

The bus lane on Rye Lane north of Hanover Park will remain open during our work. Buses will be able to turn right from Hanover Park and travel northwards on Rye Lane as usual. However, buses travelling southbound on Rye Lane from Hanover Park will be diverted via Consort Road for the duration of our project.

We'll maintain access within our closure for delivery vehicles supplying Rye Lane businesses.

Your questions answered...

Q. Why are you doing this work now?

A. We need to replace these old gas mains and while there is no ideal time to carry out the work, the timescales have been agreed with the local council and other interested parties.

Q. How will it affect my local area and travel?

A. Sometimes we need to use temporary traffic lights or close a road to keep the public and our engineers safe while the work is taking place. We'll always provide advance notification if this is the case.

As the local authority always looks to co-ordinate planned roadworks wherever possible, we need their permission to close roads. If our work affects local bus services, this will be advertised in advance too.

Q. How else might I be affected?

A. Some on-street parking in your road may be restricted to ensure certain stages of our work can be completed safely. We'll let you know when this is necessary, as your co-operation in keeping sections of the road clear helps keep our work on schedule.

We may need to take up space in the road or on the verge for a site storage area for our equipment. We'll restore any areas we've disturbed as quickly as possible after the project is finished. We'll also make good all road surfaces, pavements and driveways.

Q. When will you be working?

A. Our hours of work are agreed with the local authority. We will be working between 8am and 5pm, Monday to Saturday, and extended hours when required. We are mindful of those people who live in the area and will try to minimise noisy activities where possible. Whenever possible, we will work extended hours and at weekends.

Q. How can I find out more about the work and how it might affect me?

A. We'll do our best to keep customers informed. After all, the work we are planning is for your safety. We have our established channels, including our website and social media, as well as press releases for local media, update flyers and leaflets such as this one. We would welcome any ideas about other ways we can communicate with you to help raise awareness of what we're doing, such as details of community Facebook pages and independent websites, to which we can supply updates as the work progresses. Please email any suggestions to customer@sgn.co.uk.

You may already know us as Southern Gas Networks but we've changed our name, logo and branding to SGN. We're still the same company and our local experts are still committed to delivering your gas reliably and keeping you safe.

Every year we give our people a day on company time to team up and work on community projects of their own choice. We are always looking for other projects to complete so if you have any suggestions for your community please call Julie Lowrey on 01689 881 481.
